

File: Anderson-Darling-Test.csv

Size: 2KB

Platform: .csv readable platform.

Major component description: Implements the results of the Anderson Darling Test, which is described in the related paper.

Output description: Not all H_0 -Hypotheses could be accepted by comparison with critical z-value.

File: ResultsFull.csv

Size: 220KB

Platform: .csv readable platform.

Major component description: Implements all results of the Experiments as well as the analysis of the process times, the linear approximation of the states. It further implements the comparison for all experiments between real experiments and simulations. ExperimentalSetup01_xx are given 5 times. For placeholder xx, there is the stepsize s given from stepsize analysis (cf. related paper).
