Message from the Guest Editors

This Special Issue aims to disseminate recent research results and advancements related to artificial intelligence and big data, with particular emphasis on their applications in algorithms, model optimization, data analysis, data processing, system development, AI systems, intelligent algorithms, integration, and other new technologies. We invite researchers and practitioners to contribute high-quality original research or review articles on these topics to this Special issue.

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
