Message from the Editor-in-Chief

Condensed Matter is an online open-access journal providing an advanced forum for the development of all aspects of the physics of condensed matter systems. We are looking to build a collection of high-quality research articles, supported by a community from across the field of condensed matter physics. In this task, I will be assisted by a highly qualified Editorial Board. We accept papers on basic research as well as applications, and experimental or theoretical work. Currently the journal is indexed by ESCI—Web of Science and Scopus. We hope you will consider *Condensed Matter* as an exceptional home for your manuscript.

Editor-in-Chief

Prof. Antonio Bianconi

Aims

Condensed Matter (ISSN 2410-3896) is an international, open access journal covering all aspects of the physics of condensed matter systems. It publishes original research articles and reviews, and there is no restriction on the maximum length of the papers. Our aim is to encourage scientists to publish full details of their experimental and theoretical results including, where possible, access to original data and computer code, so that the results can be reproduced.

Scope

- Solid state physics
- Magnetism
- Structure of matter and phase transitions
- Properties of composites and alloys
- Electronic properties of materials
- Superconductivity
- Spintronics
- Quantum phenomena in complex condensed matter
- Soft condensed matter, active matter
- Computational methods applied to condensed matter
- Materials for energy and electronics in the quantum era

Author Benefits

Open Access

Unlimited and free access for readers

Thorough Peer-Review

No Space Constraints, No Extra Space or Color Charges

No restriction on the maximum length of the papers, number of figures or colors

Coverage by Leading Indexing Services

Scopus, ESCI (Web of Science), Inspec, CAPlus / SciFinder, and other databases

Rapid Publication

A first decision is provided to authors approximately 20.3 days after submission; acceptance to publication is undertaken in 3.9 days (median values for papers published in this journal in the second half of 2023)
