Deadline for manuscript  
submissions:

**closed (31 July 2023)**

### **Message from the Guest Editors**

Dear Colleagues,

Recently, biomedical signal processing has significantly improved in solving various problems in many areas of biomedical engineering. Today, more than ever, the extraction of information hidden in biosignals plays an important role in understanding the secrets of the functioning of our body. Despite the impressive progress of recent times, new diseases represent a future challenge, and biomedical signal processing will continue to play an irreplaceable role in early detection.

This Special Issue aims to present and discuss the latest biomedical signal analysis and processing developments. We invite original research works, including new theories, innovative methods, and advanced systems that significantly advance applied biosciences and bioengineering.

Prof. Dr. Kemal Polat

Dr. Ümit Şentürk

## Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)
