Deadline for manuscript  
submissions:

**31 October 2024**

### Message from the Guest Editor

Dear Colleagues,

This Special Issue will highlight the latest diagnostic technologies for retinal diseases, such as optical coherence tomography (OCT) and fundus fluorescein angiography, to aid clinicians in more accurately diagnosing such conditions.

Additionally, we will focus on basic research into the pathogenesis of retinal diseases, including changes in apoptosis, inflammatory response, angiogenesis, and more, which will aid in revealing the nature of the disease and provide a theoretical basis for effective treatment strategies.

Furthermore, we will explore the application of innovative technologies, such as artificial intelligence and big data, in the diagnosis of retinal diseases, providing more possibilities for accurate diagnosis.

We invite distinguished authors to submit original articles and reviews that explore the diagnosis, pathogenesis, treatment methods, and clinical practice of retinal diseases, providing a platform for ophthalmologists and researchers to gain a comprehensive understanding of and stay up-to-date with the latest advances in the field of retinal diseases.

an Open Access Journal by MDPI

## Editor-in-Chief

### Prof. Dr. Andreas Kjaer

2100 Copenhagen, Denmark

## Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)
