Message from the Guest Editor

Swift and appropriate diagnosis is indispensable for timely treatment and UTI management. This Special Issue in the journal "*Diagnostics*" will focus on articles covering a range of topics including novel diagnostic approaches, the appropriateness of urine specimen collection, utilizing our available diagnostic armamentarium for surveillance, antimicrobial sensitivity/resistance patterns, as well as novel treatment and management approaches. Recently, there has also been a focus on the prevention of UTIs in hospitals and the community.

It is, therefore, my pleasure to invite submissions of high quality research-based or review papers related to the aforementioned topics to create a timely and highly relevant collection of articles tackling this pertinent medical problem.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)
