Message from the Collection Editors

Dear Colleagues,

We are pleased to announce a new collection titled "Editorial Board Members' Collection Series: Drones in Emergencies Operations", which will collect papers invited by the Editorial Board Members.

The aim of this collection is to provide a venue for recent advances in drone research in the area of emergency operations, which may include search and rescue, humanitarian and disaster relief, delivery of emergency supplies, telecommunication, response to natural disasters such as floods and earthquakes, disaster recovery, etc. All papers will be published in an open-access format following peer review.

Prof. Dr. Gino J. Lim

Message from the Editor-in-Chief

Drones is the only international open-access journal about the science, policy and technology of drones and its applications. Nowadays, the proliferation of drones is a reality for local policy makers, regulatory bodies, mapping authorities, startups and consolidated companies. There are many uses and benefits of drones: from the emergence of new sensors and the evolution of new platforms; to the development of specific software and the emergence of new applications. *Drones* publishes reviews, regular research papers, communications and short notes, without restriction on the length of papers. *Drones* seeks to provide a central forum for scholars engaged in drones' research and applications.

There is a need for high quality papers in this area and the *Drones* Editorial Board are widely recognized international leaders. *Drones* journal guarantees a serious peer review and a rapid publication across the whole discipline of drones.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [Inspec](#), and [other databases](#).

Journal Rank: JCR - Q1 (Remote Sensing) / CiteScore - Q1 (Aerospace Engineering)
