Message from the Guest Editors

The objective of this Special Issue is to attract the latest research results dedicated to computing and security. This Special Issue will bring leading researchers and developers from both academia and industry together, presenting their novel research on intelligent computing and cyber security. The submitted papers will be peer-reviewed and will be selected based on the quality and relevance to the main themes of this Special Issue. Potential topics include, but are not limited to, the following:

Deadline for manuscript
submissions:

15 November 2024

- Interconnection networks;
- Sensor, wireless, and RFID systems;
- Network-on-chip architectures;
- Resource allocation and management;
- Distributed computing;
- Network routing and traffic control;
- Operating systems for parallel/distributed systems;
- Software engineering for parallel/distributed systems;
- Generalized functional safety;
- Cloud security;
- Intrusion detection;
- Data provenance;
- Cyberscience and engineering.

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q2 (*Physics, Applied*) / CiteScore - Q2 (*Control and Systems Engineering*)
