Deadline for manuscript submissions:
closed (31 August 2020)

Message from the Guest Editors

Dear Colleagues,

We are pleased to invite you to submit a research paper or a review paper to a Special Issue of the journal *Energies* on the topic of “Bioenergy from Organic Waste”.

This Special Issue is seeking original contributions regarding recent developments and ideas in the transformation of organic waste valorisation for energy recovery. Potential topics include, but are not limited to, the following: optimisation of the anaerobic digestion and co-digestion processes, dark fermentation, municipal and agricultural waste valorisation technologies, wastewater and organic waste integrated treatments, organic waste pre-treatment, microbial fuel cells, microalgae–wastewater integrated systems, and life-cycle assessment of waste treatment processes.

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compindex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Control and Optimization)
