Transforming Forest Governance and Rural Livelihoods to Address Climate Change and Biodiversity Loss

Guest Editors:

Prof. Dr. Jinlong Liu

Department of Agricultural Economics and Rural Development, Renmin University, Beijing 100872, China

Dr. Dominick A. DellaSala

Wild Heritage, PO Box 945, Berkeley, CA 94704, USA

Dr. Peter Edwards

Landscape, Policy and Governance Team, Manaaki Wheuna—Landcare Research, Level 6, 17-21 Whitmore Street, The Terrace, P.O. Box 10345, Wellington 6043, New Zealand

Deadline for manuscript submissions:

25 August 2024

Message from the Guest Editors

In general, deforestation and forest degradations have been impacted by a complex of social, economic and political factors, driven by complicated direct and indirect drivers, including the livelihoods of forest communities and forest governances from the local to global level. Forests have been fully recognized by international communities and national authorities to be a key mechanism for climate change mitigation and biodiversity conservation, especially in human-dominated tropical and subtropical regions. This Special Issue will focus on transforming forest governance and rural community livelihoods to address climate change and biodiversity loss. In just a few decades, global policy instruments, including REDD+; nature-based solutions; local initiatives, including decentralization; forest tenure reform; and community-based actions have been proposed and implemented. However, we have often ended up with confusing outcomes. This collection of articles will assess how these actions address relevant drivers of deforestation, whether or not benefits are equitably distributed and shared among stakeholder and demonstrate the meaningful participation of forest communities.

an Open Access Journal by MDPI

Editors-in-Chief

Prof. Dr. Cate Macinnis-Ng

Department of Biological Sciences, Faculty of Science, University of Auckland, Private Bag 92019, Auckland 1142, New Zealand

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia, I-25121 Brescia, Italy

Message from the Editorial Board

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access.

Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank: JCR - Q1 (Forestry) / CiteScore - Q1 (Forestry)
