## Machine Learning for Software Engineering

Guest Editors:

**Prof. Dr. Manuel Mazzara**

Institute of Software  
Development and Engineering,  
Innopolis University, 420500  
Innopolis, Russia

**Prof. Dr. Adriano Bessa  
Albuquerque**

Pos-Graduate Program in  
Applied Informatics (PPGIA),  
University of Fortaleza, Fortaleza  
60811-905, CE, Brazil

**Dr. Luiz Jonata Pires de Araujo**

Machine Learning & Knowledge  
Representation (MLKr) Lab,  
Innopolis University, 420500  
Innopolis, Russia

Deadline for manuscript  
submissions:

**closed (30 May 2023)**

### Message from the Guest Editors

Dear Colleagues,

The use of data-driven approaches for decision making and process management has become ubiquitous in several fields ranging from manufacturing to software development. Moreover, there has been a growing body of literature focusing on techniques for collecting data and designing key performance indicators that can provide helpful insights into the application at hand. This Special Issue focuses on presenting state-of-the-art research on the effectiveness of statistical models, features and indicators to increase efficiency in software engineering. Authors are encouraged to submit high-quality work addressing recurrent and challenging issues to predict, identify and mitigate errors and risks.

Prof. Dr. Manuel Mazzara  
Prof. Dr. Adriano Bessa Albuquerque  
Dr. Luiz Jonata Pires de Araujo

## Editor-in-Chief

### Prof. Dr. Gianluigi Ferrari

Department of Engineering and  
Architecture, University of Parma,  
Parco Area delle Scienze, 181/A,  
43124 Parma, Italy

## Message from the Editor-in-Chief

*Future Internet* is a fast-growing journal devoted to rapid publications of the latest results in the general areas of computer networking/communications and information systems, with a focus on the Internet of Things, big data and augmented intelligence, smart systems (in terms of technologies, architectures, and applications), network virtualization, edge/fog computing, and cybersecurity. Both theoretical and experimental papers are welcome. Every year, *Future Internet* also features Special Issues dedicated to specific topics within the journal's scope.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, Inspec, and other databases.

**Journal Rank:** JCR - Q2 (*Computer Science, Information Systems*) / CiteScore - Q1 (Computer Networks and Communications)
