Deadline for manuscript submissions:

closed (30 September 2023)

Message from the Guest Editors

Dear Colleagues,

In recent years, an increasing number of AI models, especially deep learning, have been developed in various disciplines of oral medicine for a wide range of clinical and research applications. Clinically relevant AI tools that are capable of fulfilling technical requirements with promising commercial potential are expected to bring us closer to a more precise and personalized management of patients with a variety of oral, maxillofacial, and head and neck conditions in the near future. This Special Issue of *Healthcare* seeks commentaries, original research, short reports, and reviews on recent progress and trends in Al across all oral disciplines and head and neck diseases, including but not limited to Al-assisted diagnosis, prediction, and treatment. The articles in this Special Issue are expected to provide clinicians, researchers, and healthcare organizers with an up-to-date understanding of the potential application of AI in oral medicine as well as suggestions on the issues and obstacles encountered in this area.

an Open Access Journal by MDPI

Editor-in-Chief

Message from the Editor-in-Chief

Healthcare is an international, scientific, peer-reviewed, open access journal on health care systems, industry, technology, policy, and regulation, and is published semimonthly online by MDPI. Ocular Wellness & Nutrition Society (OWNS) is affiliated with Healthcare and its members receive discounts on article processing charges.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), PubMed, PMC, and other databases.

Journal Rank: JCR - Q2 (*Health Care Sciences and Services*) / CiteScore - Q2 (*Leadership and Management*)
