Message from the Editors-in-Chief

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès
Prof. Dr. Kent Doi

Aims

Journal of Clinical Medicine (ISSN 2077-0383) is an international, peer-reviewed, open access journal on clinical and pre-clinical research. It publishes article types including Research Papers, Reviews, Editorials, Communications, etc. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. The full experimental details must be provided so that the results can be reproduced.

There is, in addition, a unique feature of this journal: it accepts studies showing meaningful but negative results. While there are many journals that focus on clinical studies, only a few of them actively accept negative results. As a result, most negative data end up not being in the public domain even if the data were meaningfully negative and the study well designed. By accepting those negative results, our journal encourages scientists to share those data so that they would not need to repeat the experiments that somebody else has already carried out.

Scope

This journal covers all topics related to clinical and pre-clinical practices. Topics of interest include (but are not limited to):

- Cardiology
- Gastroenterology & Hepatopancreatobiliary Medicine
- Clinical Neurology
- Oncology
- Orthopedics
- Endocrinology & Metabolism
- Nephrology & Urology
- Epidemiology & Public Health
- Dentistry, Oral Surgery and Oral Medicine
- Pulmonology
- Ophthalmology
- Obstetrics & Gynecology
- Immunology
- Hematology
- Mental Health
- Otolaryngology
- Dermatology
- Clinical Pharmacology
- Reproductive Medicine & Andrology
- Nuclear Medicine & Radiology
- Clinical Rehabilitation
- Clinical Pediatrics

Author Benefits

Open Access

Unlimited and free access for readers

No Copyright Constraints

Retain copyright of your work and free use of your article

Thorough Peer-Review

Discounts on Article Processing Charges (APC)

If you belong to an institute that participates with the MDPI Institutional Open Access Program

No Space Constraints, No Extra Space or Color Charges

No restriction on the maximum length of the papers, number of figures or colors

Coverage by Leading Indexing Services

Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases

Rapid Publication

A first decision is provided to authors approximately 17.9 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2023)
