Message from the Editor-in-Chief

Journal of Molecular Pathology is an international, peer-reviewed, open access journal. In the era of precision and personalized medicine, molecular pathology is revolutionizing traditional histopathology and cytopathology. The focus of this journal is on the need for pathologists to embrace such changes and to develop molecular pathology even further. This journal provides a unique forum for interaction and the dissemination of original research and educational information relevant to the practice of molecular pathology and its related disciplines.

Editor-in-Chief

Prof. Dr. Giancarlo Troncone

Aims

Journal of Molecular Pathology is an international, peer-reviewed open access journal. In the era of precision and personalized medicine, molecular pathology is revolutionizing traditional histopathology and cytopathology. The focus of this journal is on the need for pathologists to embrace such change and to develop molecular pathology even further. This journal will provide a unique forum for interaction and dissemination of original research and educational information relevant to the practice of molecular pathology and its related disciplines.

Scope

Journal of Molecular Pathology covers every topic related to modern histopathology and cytopathology, predictive pathology and molecular cytopathology. Thus, our major focus is on pre-analytical and analytical issues and the interpretation of biomarker testing in the field of diagnostic and predictive molecular pathology.

Topics of interest include but are not limited to:

- modern histopathology
- modern cytopathology
- pre-analytical cyto- and histo-pathological issues
- tissue diagnostic molecular pathology
- tissue predictive molecular pathology
- body fluids molecular pathology
- immunotherapy biomarkers
- modern multidisciplinary team
- molecular tumor boards
- translational pathology research
- digital pathology
- molecular pathology training programs
- next generation technologies in molecular pathology
- agnostic biomarkers

Author Benefits

Open Access

Unlimited and free access for readers

No Copyright Constraints

Retain copyright of your work and free use of your article

Discounts on Article Processing Charges (APC)

If you belong to an institute that participates with the MDPI Institutional Open Access Program

No Space Constraints, No Extra Space or Color Charges

No restriction on the maximum length of the papers, number of figures or colors

Rapid Publication

A first decision is provided to authors approximately 24.9 days after submission; acceptance to publication is undertaken in 3.8 days (median values for papers published in this journal in the second half of 2023)
