Message from the Editor-in-Chief

The *Journal of Marine Science and Engineering (JMSE; ISSN 2077-1312)* is an international peer-reviewed open access journal which provides an advanced forum for studies related to marine science and engineering. The journal aims to provide scholarly research on a range of topics, including ocean engineering, chemical oceanography, physical oceanography, marine biology, marine geosciences, coastal engineering and marine environmental science. We invite you to publish in our journal sharing your important research findings with the global ocean community.

Aims

Journal of Marine Science and Engineering (ISSN 2077-1312) is an international, peer-reviewed open access journal which provides an advanced forum for studies related to marine science and engineering. It publishes reviews, research papers and communications. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the maximum length of the papers. The full experimental details must be provided so that the results can be reproduced. Electronic files and software regarding the full details of the calculation or experimental procedure, if unable to be published in a normal way, can be deposited as supplementary electronic material.

Subject Areas

- Marine biology
- Marine biodiversity
- Marine genomics
- Marine ecology
- Marine resources
- Marine chemistry
- Marine environment
- Marine biotechnology
- Biological oceanography
- Chemical oceanography
- Geological oceanography
- Physical oceanography
- Ocean engineering
- Coastal engineering

Author Benefits

Open Access

Unlimited and free access for readers

No Copyright Constraints

Retain copyright of your work and free use of your article

Thorough Peer-Review

Discounts on Article Processing Charges (APC)

If you belong to an institute that participates with the MDPI Institutional Open Access Program

No Space Constraints, No Extra Space or Color Charges
