Nanomaterials for Energy Storage and Conversion

Guest Editors:

Dr. Tao Wang

College of Materials Science and
Technology, Nanjing University of
Aeronautics and Astronautics,
Nanjing 211106, China

Prof. Dr. Xianguang Meng

College of Materials Science and
Engineering, North China
University of Science and
Technology, Tangshan 066008,
China

Deadline for manuscript
submissions:

31 December 2024

Message from the Guest Editors

The editorial board of *Molecules* invites you to submit an article or review to a Special Issue entitled "Nanomaterials for Energy Storage and Conversion".

Environmentally friendly energy storage and conversion technologies require scientists to design new functional materials, of which nanomaterials are one of the most likely candidates. The design and preparation of nanomaterials and their application in the conversion of light/electricity/heat/chemical energy have become the focus of scholars around the world. This Special Issue welcomes contributions from scholars on recent advances in nanomaterials for energy storage and conversion.

Molecules is indexed by the Science Citation Index Expanded (Web of Science), MEDLINE (PubMed) and other databases, and has an Impact Factor of 4.927 (2021).

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical
Biology and Phytochemistry,
University of Münster,
Corrensstrasse 48, D-48149
Münster, Germany

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Reaxys](#), [CaPlus / SciFinder](#), [MarinLit](#), [AGRIS](#), and [other databases](#).

Journal Rank: JCR - Q2 (Chemistry, Multidisciplinary) / CiteScore - Q1 (Chemistry (miscellaneous))
