Deadline for manuscript  
submissions:

**31 August 2024**

### Message from the Guest Editors

Dear Colleagues,

The fight against hepatitis C has marked a turning point in medical history but is still an open challenge. Objective: elimination!

This special issue, published by journal “*Pathogens*”, aims to be a collection of experiences and future strategies-sharing.

What suggestions can we take from this pandemic? What we have learned from this pandemic? We will try to answer these questions together.

We invite our colleagues from Internal medicine, infectious diseases, gastroenterology, epidemiology, including clinical and basic research, to contribute their manuscripts for publication review in this Special Issue of the journal dedicated to our common enemy.

Dr. Carmine Coppola

Dr. Federica Pisano

## Editor-in-Chief

### Prof. Dr. Lawrence S. Young

Warwick Medical School,  
University of Warwick, Coventry  
CV4 7AL, UK

## Message from the Editor-in-Chief

The worldwide impact of infectious disease is incalculable. The consequences for human health in terms of morbidity and mortality are obvious and vast but, when infections of animals and plants are also taken into account, it is hard to imagine any other disease that has such a significant impact on our lives—on healthcare systems, on agriculture and on world economics. *Pathogens* is proud to continue to serve the international community by publishing high quality studies that further our understanding of infection and have meaningful consequences for disease intervention.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, CaPlus / SciFinder, AGRIS, and other databases.

**Journal Rank:** JCR - Q2 (*Microbiology*) / CiteScore - Q2 (*General Immunology and Microbiology*)
