### Message from the Guest Editors

Dear Colleagues,

Poultry meat and eggs are the most consumed animal-based protein by humans worldwide, while poultry infectious diseases represent a significant constraint to limiting commercial production, and have negative impact on animal welfare and food safety. The landscape of poultry diseases is very dynamic due to changes in husbandry practices, national and international legislations as well as biological complexity of pathogens. Thus, enhancing scientific knowledge to promote poultry health is crucial to meet the growing demands of poultry derived protein.

This Special Issue focuses on poultry infectious diseases, including viruses, bacteria, fungi, and parasites under field or experimental conditions. Research articles and literature reviews covering microbiology, immunology, vaccines, pathology, epidemiology, prevention and control, and diagnostic methods of infectious diseases are welcome.

## Editor-in-Chief

### Prof. Dr. Michael Hess

Clinic for Poultry and Fish  
Medicine, Department for Farm  
Animals and Veterinary Public  
Health, University of Veterinary  
Medicine Vienna, Veterinärplatz  
1, A-1210 Vienna, Austria

## Message from the Editor-in-Chief

*Poultry* is a newly established, online, open access journal that aims to publish high-quality research on topics in various areas of poultry production and health. This research should reflect the eminent and increasing importance of all poultry species reared for human nutrition. *Poultry* adheres to rigorous peer-review and editorial processes. Containing specialists from different areas in this field of research, the Editorial Board enthusiastically works to safeguard the quality of the review process and your contribution. A dedicated support team from the publisher is available, when required, to offer help and support for specific requests. Equipped with such a wide breadth of knowledge and expertise, *Poultry* should be the landmark for research on poultry science.

## Author Benefits

**Open Access:** free for readers, with **article processing charges (APC)** paid by authors or their institutions.

**Rapid Publication:** manuscripts are peer-reviewed and a first decision is provided to authors approximately 22.5 days after submission; acceptance to publication is undertaken in 6.6 days (median values for papers published in this journal in the first half of 2024).

**Recognition of Reviewers:** APC discount vouchers, optional signed peer review, and reviewer names published annually in the journal.
