

Deep Neural Networks for Hyperspectral Remote Sensing Image Processing

Guest Editors:

Dr. Yulei Wang

Prof. Dr. Meiping Song

Dr. Enyu Zhao

Dr. Weiyang Xie

Dr. Chunyan Yu

Prof. Dr. Caixia Gao

Prof. Silvia Liberata Ullo

Deadline for manuscript
submissions:

15 January 2025

Message from the Guest Editors

Dear Colleagues,

This Special Issue aims to explore features that truly benefit hyperspectral remote sensing interpretation tasks and provides a forum for many individuals working in deep-learning-based hyperspectral image processing to report their research findings and share their experiences with the HSI community. All contributions to deep neural networks for hyperspectral remote sensing image processing are welcome to this Special Issue. Topics of interest include, but are not limited to, the following:

Deep neural networks for target detection, band selection, and classification in hyperspectral images.

Deep learning for surface parameters retrieval from thermal infrared images.

Deep feature extraction for multi-source remote sensing images.

The hybrid architecture of CNN and transformer for hyperspectral applications.

Feature fusion and learning for hyperspectral image processing.

Light-weight design of deep models.

Review/surveys of recent applications and techniques of hyperspectral images.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Remote Sensing is now a prominent international journal of repute in the world of remote sensing and spatial sciences, as a pioneer and pathfinder in open access format. It has highly accomplished global remote sensing scientists on the editorial board and a dedicated team of associate editors. The journal emphasizes quality and novelty and has a rigorous peer-review process. It is now one of the top remote sensing journals with a significant Impact Factor, and a goal to become the best journal in remote sensing in the coming years. I strongly recommend *Remote Sensing* for your best research publications for a fast dissemination of your research.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubAg, GeoRef, Astrophysics Data System, Inspec, dblp, and other databases.

Journal Rank: JCR - Q1 (Geosciences, Multidisciplinary) / CiteScore - Q1 (General Earth and Planetary Sciences)
