Multimodal Sensing Technologies for IoT and AI-Enabled Systems

Guest Editors:

Dr. Emmanouil Tsardoulis

School of Electrical and
Computer Engineering, Aristotle
University of Thessaloniki, 54124
Thessaloniki, Greece

**Prof. Dr. Charalampos
Dimoulas**

Laboratory of Electronic Media,
School of Journalism and Mass
Communications, Aristotle
University of Thessaloniki, 54124
Thessaloniki, Greece

**Prof. Dr. Andreas L.
Symeonidis**

School of Electrical and
Computer Engineering, Aristotle
University of Thessaloniki, 54124
Thessaloniki, Greece

Deadline for manuscript
submissions:

20 November 2024

Message from the Guest Editors

In today's world, multimodal data and sensing technologies have emerged as crucial components within the Internet of Things (IoT) and Artificial Intelligence (AI) paradigms, influencing multiple fields from healthcare to industry, media, education, robotics, transportation, environmental monitoring, shaping broader multidisciplinary research and application projects. Time-, location- and contextual awareness, integrating IoT with AI has given birth to enhanced smart systems capable of performing complex tasks autonomously, thereby contributing to the development of intelligent societies. This special issue aims to bring together cutting-edge research and the latest advancements in multimodal sensing technologies, IoT, and AI-enabled systems, combining imaging applications, audiovisual reaction monitoring, and broader sensing technologies (e.g., temperature, humidity, air pollution, interaction recording, etc.), thus forming multimodal fusion decision systems. The proposed special issue makes an excellent match to the objectives of the Sensors journal while also aligning perfectly with its multidisciplinary nature.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria
Elettrica e dell'Informazione
(Department of Electrical and
Information Engineering),
Politecnico di Bari, Via Edoardo
Orabona n. 4, 70125 Bari, Italy

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Author Benefits

Open Access : free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Ei Compendex](#), [Inspec](#), [Astrophysics Data System](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Chemistry, Analytical*) / CiteScore - Q1 (Instrumentation)
