Message from the Guest Editor

Dear Colleagues,

This Special Issue is intended to provide an up-to-date and comprehensive view on the state-of-the-art of sensor science and technology in Italy.

The covered topics will span from sensing devices and principles (including chemical, physical, biological, and optical sensors), to sensor technologies (including micro and nano fabrication, film and printed technologies), and from sensor systems (including sensor electronics, energy harvesting, sensor networks, and the Internet of Things), to applications in different scenarios (including industrial, automotive, environmental, food and agriculture, biomedical, and other fields).

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Author Benefits

Open Access : free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.
