and Kapodistrian University of
Athens, 157 71 Athens, Greece

Deadline for manuscript
submissions:

closed (31 January 2019)

Message from the Guest Editors

Dear Colleagues,

To celebrate the fifth year of the publication of *Separations*, we have the honor to edit a new Special Issue. The Special Issue will collect original research papers from the frontiers of separation research, as well as review articles from prominent scholars, highlighting the state-of-the-art of separation science and technology. We invite researchers and technologists, whose work focuses on separations and related applications, to contribute with papers disseminating their excellent research findings. We consider that this issue can provide a multidisciplinary approach to separation techniques and it will be the best forum for sharing innovative ideas in the field.

We are looking forward to receiving your work.

Prof. Dr. Victoria F. Samanidou

Prof. Dr. Rafael Lucena

Message from the Editor-in-Chief

Separations offers the scientific community a high-quality, open-access journal option with rapid time-to-publication without any sacrifice of a rigorous peer-review process. We invite contributions ranging from fundamental characterization and instrumentation development through application of techniques to shed light on a broad spectrum of separation science needs. Since inception, *Chromatography*, has become unique in its combination of rapid publication and thorough scientific content. We invite you to consider us for your next contribution.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [CAPlus / SciFinder](#), and [other databases](#).

Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 12.4 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2024).
