Message from the Editor-in-Chief

Youth is an international and peer-reviewed journal covering a broad range of topics that all influence persons lumped into the category of youth. The numerous issues of interest to the research community involving youth include mental health, education, sociology, economics, employment, cultural studies, civic engagement, and other social perspectives of youth and young adulthood.

Our goal is to work together with the global research community whose interest and scholarship speak to providing evidence that will support and enhance the lives of youth and the systems that affect their lives. We are interested in working with graduate students, scholars, scientists, and research centers who share this interest.
